COMMENTS: Our most popular medium duty truck, the Hino 338 is strong, reliable and provides excellent fuel economy. The 338 is powered by the "High Torque" J-series 7.6L engine, which provides 260 horsepower and 660 ft-lbs of torque. A 12,000 lb. front axle with a 21,000 lb. rear axle provides a GVWR rating of 33,000 lbs. making the 338 ideal for a wide range of applications from general freight to specialized applications. The Hino 338 comes standard with an Allison 2500RDS 6-speed automatic transmission with PTO capability. Wheelbases ranging from 187" to 280" allow you to customize the Hino 338 to suit your needs. The Hino 338 is equipped with hydraulic disc brakes (280" wheelbase) or air brakes and ABS (187" to 271" wheelbases). Optional rear air suspension combined with the superb manoeuvrability, excellent visibility and the many standard features for which Hino trucks are renowned, ensures that the 338 will continue to provide outstanding driver comfort. Hino offers a "clean chassis" as standard for the 338 model. With nothing mounted to the outside of the frame rails behind the cab, the clean chassis configuration is ideal for beverage body applications and for heavy freight. For 60 years we at Somerville National Leasing have been striving to give our customers the best quality service possible. In 2008 Somerville Hino first opened its doors, we have been an award winning Hino dealership in Canada ever since. Whether you're looking for a new or used Hino Truck, Somerville Hino has the right vehicle for sale,...
