**COMMENTS:** With a revised exterior, a reputation for reliability, and known for their exceptional safety equipment; behold! The 2015 Volvo V60. This four cylinder turbocharged 2.0L (in front wheel drive auto) gets an impressive 37 MPG highway and flat out makes other wagons look dated in areas of performance, fuel economy and styling. Typical of the brand, these new Volvo's also excel in the safety category, for example, the Pedestrian and Cyclist Detection system that not only detects these hazards (using radar), but can bring the car to a stop for you (don't text and drive!). This is the T5, but T5 and T6 badges are retained only as the Volvo nomenclature. T6 no longer means six cylinders, and a T5 no longer...
