- Power Seats
- Power Windows
- Radio
- Smart Device Integration
- Steering Wheel Audio Controls

COMMENTS: The Golf R is the biggest baddest Golf ever produced. Following along the same path as the previous two generations of the R32. The Golf R is powered by VW's 4-motion all wheel drive system. The current Golf R is powered by a direct injected 2.0L Turbocharged 4-Cylinder. Although smaller than the previous two R32 engines, it is much more powerful, producing a generous 292hp! This Golf R is finished in Oryx White Pearl Metallic exterior, with the Titan Black interior and the touch screen multi-media system. Come check it out before it disappears.

This vehicle was repurchased by the manufacturer due to a complaint from the previous owner....
