2020 Safari Condo Alto 1713

Type: RV (Travel Trailer)
Stock #: 5357

\$48,695

COMMENTS: The seamless aluminium roof is built in a single piece of curved Alufiber/aluminium sandwich panel. It is opened and closed by a pair of electric linear actuators. Its crescent-shaped windows are tinted tempered glass. With the retractable roof down, the aerodynamic shape of the Alto, developed in a virtual wind tunnel, creates 75% less aerodynamic drag than a traditional travel trailer. This factor, along with its lightweight, makes the Alto readily towable by most compact cars and small SUVs.

Underneath the Alto :

Its independent Flexiride suspension and very low centre of gravity provide great stability to the Alto. Its floor and frame are made of aluminium. For maximum aerodynamics, the weld-free frame supports streamlined tanks. Powerful electric brakes come as standard equipment.

A Green Travel Trailer :

Faced with the steady increase in the price of gasoline and the social responsibility we all share to save non-renewable fossil energy, Safari Condo wanted to design ultra-light travel trailers with the lowest possible drag coefficient. Travel trailers meeting these two criteria could then be readily towed by smaller vehicles. Even more environmentally conscious, Safari Condo also wanted its materials selection to be not only lightweight but for the most part recyclable.
