- Power Steering
- Power Windows
- Radio
- Stability Control
- Steering Wheel Audio Controls
- Sun/moonroof
- Tilt Steering
- Telescopic Steering
- Turbocharged
- Traction Control

COMMENTS: The GTI is the car that invented the hot-hatch segment back in 1983, and 6 car generations later Volkswagen still maintains a standard of excellence in the 3/5 door class with this 2013. The model shown here comes with all the performance and handling we have come to know and expect from this legendary model, as well as a couple cool extras such as a power moonroof, auxiliary audio input, Bluetooth and heated leather seats. This GTI is built with a 2.0L turbocharged engine that gets up to 33 MPG highway, makes up to 200 HP, and has the fun to use paddle shifters! If you're a fan of the original VW Golf, but wish it were a little more on the performance side, this car was made for you!...
