COMMENTS: Every once in a while, a new concept revolutionizes the RV industry. The new Escape HATCH by KZ is just that type of notion. The idea is simple, take an affordable ultra-lightweight camper and add a large rear door that opens vertically. It immediately provides easily-accessible King Kong storage, unparalleled fresh air, tons of natural light, and a second overhead covering (under the rear door). So, for the first time, imagine a roughly 20-foot, 3,000-pound camper that actually has the ability to be easily loaded and allows one to store everything from kayaks and bicycles to coolers and lawn chairs. In fact, you can take virtually whatever you want!

The most versatile & innovative trailer on the market offers Open Air Camping: Roll the screen wall down, open the rear hatch, and enjoy the great outdoors! ...
