This is a Sterling which is actually built by Dodge so this is the same as a Dodge/Ram 5500 but with a different grill. This 6.7 Litre Cummins has the DEF system deleted, the heavy duty automatic transmission, Air conditioning. power windows and locks and a power drivers seat.

The deck has a 5th wheel hitch provision and a bumper hitch and wiring and a brake control so it is ready to pull your trailer. There are also side tool boxes.

The Picker is a 2008 HIAB picker model#077CLX and the ser# is 2174, the picker works fine and the last inspection for the picker was April 23, 2019 which are good for a year so if you plan to use this truck commercially the picker would have to be re-inspected at your expense.

We installed very good top of the line new tires all the way around, truck is inspected and ready to go with a fresh oil change and new fuel filters.

GVWR on this 5500 is 8846 kg which is about 19,500 pounds....

Taxes, license, and document/administration fee may apply.
Confirm all details and specifications with the dealer.
